NUCOR CORPORATION CERTIFICATION

UNITED STATES TOXIC SUBSTANCES CONTROL ACT (TSCA) PERSISTENT BIOACCUMULATIVE AND TOXIC (PBT) CHEMICALS AND CERTAIN OTHER TSCA SECTION 6 CHEMICALS

To whom it may concern:

Nucor Corporation declares that none of the TSCA PBT chemicals listed as of January 6, 2021 and certain other identified TSCA Section 6 chemicals are utilized or intentionally introduced by any of Nucor's Divisions or manufacturing processes.

TSCA PBT Background

The Frank R. Lautenberg Chemical Safety for the 21st Century Act, enacted on June 22, 2016, includes a provision under TSCA Section 6(h) requiring EPA to take expedited action on specific PBT chemicals to address risk and reduce exposures to the extent practicable. EPA identified five PBT chemicals for expedited action in 2016, following criteria outlined in section 6(h) of TSCA and issued a proposed rule in 2019. EPA issued final rules on January 6, 2021. The five PBTs identified by rule are:

- Decabromodiphenyl ether (DecaBDE)
- Phenol, isopropylated phosphate (3:1) (PIP (3:1))
- 2,4,6-Tris(tert-butyl)phenol (2,4,6-TTBP)
- Hexachlorobutadiene (HCBD)
- Pentachlorothiophenol (PCTP)

Other TSCA Section 6 regulated chemicals of concern identified both prior to, and after the June 2016 TSCA Amendment, include:

- Asbestos
- Lead, when used in paint
- Polychlorinated biphenyls (PCBs)
- Dioxins
- Chlorofluorocarbons (CFCs, ozone depleting substances)
- Metallic mercury, when used in consumer products
- Formaldehyde, when used in composite wood products
- Nitrosating agents, when used in certain cutting fluids
- Hexavalent chromium compounds, when used in water treatment
- Methylene Chloride, for paint and coating removal

None of these listed TSCA Section 6 chemicals are utilized or intentionally introduced by any of Nucor Corporation's steel or steel products Divisions.

Nucor supplies hazardous chemical information on its safety data sheets (SDS), which are provided to each purchaser, and are available at <https://www.nucor.com/certifications/> or upon written request.

If you need additional information on a specific Nucor steel product, please contact:
